Aboriginal Community Sport Development Grant *Grant Application Guide for Communities*

Purpose

The purpose of the Aboriginal Community Sport Development Grant Program (ACSGP) is to provide greater sport participation and development opportunities for Aboriginal youth in Saskatchewan. The program will assist and support the implementation of organized community sport programs to increase sport opportunities for youth in the Aboriginal community, specifically in urban, rural, on-reserve, isolated and northern communities.

The Aboriginal Community Sport Development grant will focus on communities and building their capacity to offer quality, organized sport programs** for Aboriginal youth. The goals of the initiative are:

- Increase the number of Aboriginal youth participating in organized sport programs in Saskatchewan;
- Increase the numbers of volunteers available to organize and assist with sport teams and clubs;
- encourage communities to work cooperatively with others communities or sport groups to organize leagues, tournaments and competitions;
- Provide resources to assist communities with introducing new, organized sport programs** that include coaching or leadership components.

*** Organized sport programs include a full spectrum of community support including facility access, volunteers, coaching, leadership, children and youth. Additionally a full-range of sport participation opportunities must be considered and provided, starting with exposure to different sports; then introducing sport skills instruction; then onto organizing teams, clubs, leagues and tournaments; and then offering opportunities for higher levels competition, often outside of the community. For all this, coaching and volunteer leadership from within the community are key!*

The ACSGP is jointly funded through Sport Canada's Aboriginal Participation Bilateral through the Province of Saskatchewan, and the Sask Lotteries Trust Fund for Sport, Culture and Recreation.
